COMMUNITY DEVELOPMENT PROGRAMME TESTS OF SELF-HELP AND SELF-RELIANCE.

Imphal, the 6th April, 1959.

1. India Government has decided that selection of new areas for Community Development Blocks will be done by Committee according to norms and thus laid down herewith. These as set norms and tests are not intended so serve as test for competition in selection of areas for he coverage of the C. D. Programme but are meant to give a prima facie indication of the preparedness of an area to receive the benefit of the C. D. Programme. They will thus be regarded as qualifying test.

2. The qualifying tests in Manipur are :

(a) Fair evidence of village clearliness and sanitation.

(b) Number of Compost pits dug and used.

(c) Extent of coverage by Co operatives.

(d) Extent to which responsibility for development programme is shouldered by local Development Committees (People)

(e) Extent to which credit and supplies are channelised through Co-operatives.

(f) Number of roads/Village paths/Water Tanks/Irrigation channels constructed.

3. The tentative programme for further opening of Development Blocks in Manipur upto April, 1961, is as follows :

(1)	Phaisat (Ukhrul Sub-division) (Now in pre-extention Stage)	October, 1959
(2)	Bishenpur (In pre-extention Stage from 1-4-59)	April, 1960
(3)	Tengnoupal	October, 1960
(4)	Thanlon (Churachandpur Sub-Division)	April, 1961

4. A Committee composed of the Deputy Commissioner, Manipur and 2/3 non-Officials and Officials as an advisory body will decide whether an area satisfies the test. If it does not, the Committee may recommend another Block which does.

5. It is essential that throughout the period of operation of a Block the tempo of people's sense of self-reliance is kept up With this end in view the conversion of a pre-extension Block into Stage I should depend largely on the performance of the villagers in the above fields as judged by the Committee. If a pre-extension Block does not satisfy the test, it will continue to function only as a pre-extension Block until it does. Villagers concerned are therefore earnestly requested to do their utmost to qualify themselves and their areas to receive the benefit of the development programme.

C. H. NAIRE,
Development Commissioner, Manipur.

Sub :—SCHEMES OF PRIZE COMPETITIONS AMONG VILLAGE LEVEL WORKERS AND VILLAGES FOR THE YEAR 1959-60— MODIFICATION REGARDING.

As you are already aware, it has been decided to continue the schemes for prize competitions among Village level workers and Villages during the year 1959-60. On the basis of the experience gained it has been felt necessary to make some modifications and to issue certain clarifications in order to achieve greater uniformity in standards of assessment etc. It was particularly noticed that the prize competition among Villages was more neglected and some confusion prevailed in their selections so much so that many State Governments could not till now intimate the names of the best Villages while others could not send their achievements. Similarly the standards applied for assessment of achievements in case of best village level workers varied to a certain extent from State to State. To obviate all these difficulties and to facilitate better understanding and implementation of the competitions the following modifications are being made.

A. COMPETITION :

(i) The schemes will be restricted only to productive items of the programme viz. Agriculture, Animal Husbandry, Irrigation and co-operation, but a number of sub items under these heads will be indicated in order to enable the State Governments to choose a certain minimum number of them which may be more important according to local conditions. Comprehensive instructions in regard to the assessment of physical achievements will be issued later.

(ii) The selection of the best village will not be restricted to the circles of the Village Level Workers winning prizes at the various levels. Instead, the competition would be broad based and the following procedure is suggested for the selection of the best Villages at various levels from amongst all the villages situated in the circles of the competing Village Level Workers.

Block—The Block Development Officer will select the best Village in his block in consultation with the Block Development Committee.

District—The selection Committee at the District Level will consider the achievement of all the Villages reported by the Block Development Officers and select the 'best' Village at the District Level.

State—The Selection Committee at the State level will select the 'best' Village in the State from amongst the 'best' villages at the District Level.

While selecting these Villages, efforts made by the Villagers not only in the productive fields but also in other fields of common interest viz. development of people's institutions and implementation of the programme through them and the degree of community cohesion and amity etc. should also be taken into account.

B. PRIZES :

(i) The maximum value of the prizes at the various levels should be the same as for the year 1958-59. The prizes may be selected by the State Governments and should be such as would help the Village level workers to perform their duties more efficiently. No cash prizes need be given.

(ii) The State winning the National level prize for the best village level worker and/or the best village may divert the State Level prize to the next best village Level worker or village as the case may be.

(iii) The prizes for best Villages should be paid in cash to the village Panchayat or where it does not exist to the Vikas Mandal.

ENTRANCE FEE :

A few States had requested last year for the abolition of entry fee but in order to give seriousness to the competition it has been decided to retain the entry fee of 50 N P. per competitor.

2. The period of competition would be from the 1st April, 1959, to the 30th September, 1959. Efforts may kindly be made to encourage all the village level workers to participate in the competition.

3, The results of the competition upto state Level should be finalised before the 30th November 1959, and intimated to this Ministry latest by the 15th December, 1959, to enable this Ministry to select the National Level winners It is proposed to distribute the prizes on the Republic Day and this would be possible only if the State Governments adhere to the time schedule.

4 It is reiterated that wide publicity should kindly be given to these schemes so that maximum benefit is derived from them and necessary public enthusiasm is aroused

5 The receipt of this letter may please be acknowledged

Under Secretary to the Government of India.

N. C. BHAWAL,
Director of Medical & Health Services
Manipur Administration.

RASHTRAPATI BHAVAN, NEW DELHI.
April 18, 1959.
Chaitra 28, 1881 (Saka).

It was on the 24th of June 1859 that the idea of providing succour to the neglected sick and wounded was conceived by Henri Dunant of Switzerland, after he had witnessed the harrowing scenes of suffering on the battle-field in northern Italy. The Institution of the Red Cross owes its origin to this idea. During these 100 years the Red Cross has developed into one of the greatest humanitarian organisations in the world.

On the occasion of the Centenary of the birth of the Red Cross idea, I take this opportunity to express my appreciation of all that the Red Cross has done in the past for suffering humanity, both in peace and in war, and wish it still greater success during the next century upon which it now enters.

RAJENDRA PRASAD.

VICE-PRESIDENT'S LODGE
2, KING EDWARD ROAD
NEW DELHI
20th April 1959.

Message

For centuries man's conscience has prompted him to share the woes of his fellowmen and make effort to relieve suffering. The Red Cross represents a unified expression of this human spirit which in the troubled world of to-day kindles a hope for a peaceful and happy future.

On the occasion of the Centenary of the Birth of the Red Cross Idea which is being celebrated this year all over the world, including our country, I wish this great international organisation every success

H. M. SHARMA,
Assistant Secretary (Edn), Manipur Administration.

Subject :— Recommendation of D. ED. (Basic Degrees as Equivalent to B. ED., B. T. or L. T. Degree.

I am directed to invite a reference to para 3 of this Ministry letter No. F.29-2/59 S. 2 and to say that certain Post Graduate Basic Training Colleges have already been affiliated to the Indian Universities and their students, on passing the University Examination, awarded the B.E.D. (Basic) degree. This has given rise to the question, if this degree should be gazetted along with other University degrees—by the University Grants — Commission. The Government are advised that the word "Basic" after the degree "B.Ed" is, to use the Phraseology of the University Grants Commission, Purely descriptive, indicating the subject of the faculty in which the degree is awarded. Since the degree "B. Ed." has been included in the approved list of degrees, the addition of the word "Basic" would be a mere superfluity.

I am accordingly to request that the B.Ed. (Basic) degree of an Indian University should be treated on a par with the B.Ed., B. T. or L.T. degree for all contents and purposes.

ANNEXURE.

The Assam Co-operative Societies Act, 1949, as extended to Manipur.

The following messages issued by the President & the Vice-President regarding the Red Cross Centenary celebrations and received from the Secretary, General of Indian Red Cross Society are published for general information.

N. C. BHAWAL,

Manipur Administration.

RASHTRAPATI BHAVAN, NEW DELHI.
April 18, 1959.
Chaitra 28, 1881 (Saka).

It was on the 24th of June 1859 that the idea of providing succour to the neglected sick and wounded was conceived by Henri Dunant of Switzerland, after he had witnessed the harrowing scenes of suffering on the battle-field in northern Italy. The institution of the Red Cross owes its origin to this idea. During these 100 years the Red Cross has developed into one of the greatest humanitarian organisations in the world.

On the occasion of the Centenary of the birth of the Red Cross idea, I take this opportunity to express my appreciation of all that the Red Cross has done in the past for suffering humanity, both in peace and in war, and wish it still greater success during the next century upon which it now enters.

RAJENDRA PRASAD.

VICE-PRESIDENT'S LODGE
2, KING EDWARD ROAD
NEW DELHI
29th April 1959.

Message

For centuries, man's conscience has prompted him to share the woes of his fellowmen and make effort to relieve suffering. The Red Cross represents a unified expression of this human spirit which in the troubled world of to day kindles a hope for a peaceful and happy future.

On the occasion of the Centenary of the Birth of the Red Cross Idea which is being celebrated this year all over the world, including our country, I wish this great international organisation every success.

I am directed to state that it has been decided by the Government of India that the Scheme 'General Cultural Scholarships to foreign students for study in India' should hereafter be called 'The General Scholarships Scheme of the Government of India'.

No. C. HDE/66/54 57.—The following letter No F. 29-2/58. B-2 dated the 28th March, 1959 issued by the Government of India, Ministry of Education, New Delhi — 1 is published for general information.

H. M. SHARMA,
Assistant Secretary (Edu), Manipur Administration.

Subject :— Recommendation of D. ED. (Basic) Degrees as Equivalent to B. ED., B. T. or L. T. Degree.

I am directed to invite a reference to para 3 of this Ministry letter No. F.29-2/59, B. 2 and to say that certain Post Graduate Basic Training Colleges have already been affiliated to the Indian Universities and their students, on passing the University Examination, awarded the B.E.D. (Basic) degree. This has given rise to the question, if this degree should be gazetted along with other University degrees—by the University Grants — Commission. The Government are advised that the word "Basic" after the degree "B.Ed" is, to use the Phraseology of the University Grants Commission, Purely descriptive, indicating the subject of the faculty in which the degree is awarded. Since the degree "B. Ed." has been included in the approved list of degrees, the addition of the word "Basic" would be a mere superfluity.

I am accordingly to request that the B.Ed. (Basic) degree of an Indian University should be treated on a par with the B.Ed., B. T. or L.T. degree for all contents and purposes.

Sd/- D. SUBRAMANIAN,

EXPLANATORY NOTE.

(This note is not part of the Rules or amendments but is intended to indicate their general purport).

Amendment No. 1. —At present an Assistant Controller who is in Class II service can deal with estates whose value does not exceed rupees five lakhs and an Assistant Controller who is in Class I Service can deal with estates whose value does not exceed rupees ten lakhs. Estates of the value of over ten lakhs are dealt with by Deputy Controllers. With a view to avoid frequent transfers of the cases from one officer to another, it has been decided to remove the distinction in the matter of jurisdiction between Assistant Controllers in class II Service and Assistant Controllers in Class I Service and give all Assistant Controllers jurisdiction over estates whose value does not exceed rupees ten lakhs.

Amendment No. 2 —Rule 7(d), proposed to be deleted, provides that the interest of a member in the joint family property of a Hindu family governed by the Mitakshara, Marumakkattayam or Aliyasantana law, which ceases on his death is movable property notwithstanding that the family owns immovable property. As this sub-rule is in conflict with the provisions of section 21 of the Estate Duty Act, it has been decided to delete it.

Amendment No. 3 —This is a formal amendment designed to provide for the acceptance of the assignment on behalf of President by the Controller of Estate Duty.

Amendment No. 4.—Rule 35 prescribes the particulars to be furnished by insurers in respect of insurance policies taken out by the deceased. Under the rule as it stands (before amendment), such particulars are to be furnished to the Assistant Controller or Deputy Controller of Estate Duty who is exercising the functions of the Income-tax Officer in respect of the insurer The amendment provides that the prescribed particulars should be furnished to the Deputy Controller of Estate Duty concerned.

MANIPUR ADMINISTRATION

SECRETARIAT—REHABILITATION BRANCH

Imphal, the 16th May, 1959.

No. 22/77/51-59/Ref/S(H)-AS(L).—The following Press Note of the Government of India, Ministry of Rehabilitation, is republished.

M G. SINGH,
Assistant Secretary (L),
Manipur Administration.

PRESS NOTE

The Ministry of Rehabilitation issued a Press Note in 1956 announcing the formulation of a scheme to effect the transfer of allottable Government built properties in Delhi and elsewhere to the authorised occupants of such properties. Authorised allottees who were prepared to purchase the tenements/houses/shops in their occupation were asked in this Press Note to submit applications in the prescribed form either to the Administrator of the Colony or to the Regional Settlement Commissioner concerned. The last date for the filling of such applications was 30th September, 1956. It was stated that in the case of those non-claimants who applied before the 30th September, 1956 and who paid the first instalment along with any arrears of rent due from them within the period fixed by the Regional Settlement Commissioner, rents would be remitted retrospectively with effect from 1st October, 1955.

2. By another Press Note issued on 15-7-1956, the Government permitted non-claimants who were in occupation of allottable property to associate claimants to get the price of the property adjusted against the compensation of such claimants. On June 12, 1957, the Government further relaxed the terms and conditions on which allottable Govt. built and evacuee property could be transferred to non-claimants. In the Press Note announcing this relaxation it was stated that a non-claimant displaced person could now pay for the allottable property in his occupation in 8 instalments viz. an initial instalment of 20% of the price of the property followed by the payment of the balance in 7 equal annual instalments.

3. The Government has observed with great regret that in spite of the concessions and relaxations which have been made from time to time in order to facilitate the purchase of houses by non-claimant displaced persons in occupation, the response has been exceedingly poor. The present position is that non-claimant displaced persons who are in occupation of property valued at about 40 crores of rupees are taking the fullest advantage of the waiver of rent from October, 1955 but have taken no steps to deposit the 20% of the property in their occupation nor to enter into an agreement to pay the balance in 7 years as required under the rules. In addition because the houses are still owned by the Government, those displaced persons are paying no Municipal taxes.

4. In view of the fact that the Compensation Scheme is in its closing stages and that it is necessary for the Government to realise all its assets in the pool so as to finalise its accounts, the Government feels that the present state of affairs in regard to the disposal of property in the possession of non-claimants should not be allowed to continue indefinitely.

5. The Ministry of Rehabilitation is, therefore, issuing this Press Note calling upon non-claimant displaced persons for the last time to avail of the existing concessions in regard to the acquisition of allottable property in their occupation by paying the initial deposit and entering into an agreement to pay the balance in instalments as prescribed under the rules. Non-claimant displaced persons in occupation of Government built or allottable evacuee property in the pool are called upon to deposit the first instalment before the 31st July, 1959. Those who make the deposit before the prescribed date will be allowed the concession of remission of rent with effect from 1st October, 1955 and will be allowed the further concession of counting the instalments with effect from the date on which the deposit is made and not from 1st October 1955.

6. In the case of those who do not avail of this offer before the 31st July, 1959, the Government will dispose of the properties in their occupation. If in any particular case the Government permits a non-claimant displaced person to purchase the property in his occupation after 31st July, 1959, it will be on the condition that all arrears of rent upto 1st August, 1959 will have to be paid in full. Furthermore in all such cases where the deposit is made after the 1st August, 1959, instalments will be deemed to have become due with effect from 1st August, 1959. Permission to make deposits after 1st August, 1959 will be given only in exceptional cases. Normally where a deposit has not been made before that date, the property will be disposed of by the Govt. by sale or otherwise.

So far as the Government of India are concerned, the States would be required to send not more than 50 candidates in all. A broad pattern of uniform procedure in making preliminary selections should be adopted, i.e. the State Governments should call all the applicants for a test and/or interview and should not merely select them on the basis of their previous schooling and record. This is necessary since it is felt that equal opportunities should exist for all who apply for the awards

(b) A list of the recommended candidates (as in Annexure V) should be furnished to the Ministry by the 1st August, 1959, together with a list of candidates who were summoned by him for an interview and had to undertake a journey from an outstation in connection with the preliminary screening.

In testing a candidate and awarding marks to him, both at the written and at the oral tests, due attention shall be paid to age, previous schooling and background and allowance made where necessary, for the kind of school that a candidate has been attending so that no candidate is unduly privileged or handicapped by the previous schooling, the main consideration being the promise of a candidate in preference to achievement.

5 MANUFACTURE AND FINISH

General - When the weights are cast, thecastings shall be reasonably smooth, and free from dross, pits, blow holes and other defects. When the weights are made by machining or forging, the surface shall be reasonably smooth. Sheet metal weights shall be clearly sheared and shall be free from burrs. Cast iron and forged weights shall be coated with a thin film of suitable black paint or varnish.

The raised markings on weights shall be clean and legible. The stamped markings on sheet metal weights shall be legible and deep enough to ensure indelibility over a long period, but not so deep as to crack the sheet.

When lead is used in adjusting weights, it shall be so fitted as to ensure that it does not dislodge itself under normal conditions of use.

The steel handles of cast iron weights shall be rigidly fixed

6. MARKING.

Every weight, except weights of 10 g and lower denominations, shall have the manufacturer's name or trade mark indelibly cast or stamped on it.

The denominations shall be indicated in an indelible manner , with the abbreviations 'kg' and' ' to indicate kilogram, 'g' and ' ' to indicate gram, and 'mg' and ' ' to indicate milligram. The size of numerals and letters (letters need not be stamped on weights 50 mg and below) indicating denominations of weights shall be at least twice the size of letters indicating the manufacturer's name or trade mark. The numerals used in the denomination shall be only Indo-Arabic figures.

7. ADJUSTMENTS

The weights provided with loading holes shall be adjusted by pouring the required weighed quantity of molten lead into the loading hole and pressing the lead firmly. The approximate distance of the lead from the surface shall be not less than 20 percent of the minimum thickness of the weight when new. The lead used for adjusting may preferably conform to Grade Pb 99.8 percent of IS : 27-1956.

P A R T II COMMERCIAL CARAT WEIGHTS

1. General (a) Commercial Carat Weights shall be used in weighing precious stones and pearls.

(b) For ease of calculation and convenience of use, a carat is usually subdivided into 100 equal parts, called cents. A cent thus equals 2 mg. In the denominations of the commercial carat weights, the system followed is that where a fractional weight in the carat series occurs, that fraction is given as so many parts per 100 cents. e.g. 0.5 carat is designated as 50/100 carat.

****

P A R T IV - DISPENSING MEASURES.

*****

1. General

This Part deals with two types of dispensing measures made of glass and transparent plastic materials, used for dispensing purposes.

2. Types and Denominations

Dispensing measures shall be of the following types and denominations:

(a) Conical Measures : 200 ml, 100 ml, 50 ml, 20 ml, 10 ml, and 5 ml.

(b) Beaker Measures : 1000 ml and 500 ml.

3. Materials

(a) Glass Measures - The measures shall be made of clear and transparent glass. They shall be well annealed; free from stones, cracks and chippings; and as free as possible from blisters and other defects. Lead glass shall not be used for the measures.

(b) Transparent Plastic Measures - The measures shall be made of a clear and transparent plastic material, manufactured from plasticised polyvinyl chloride or copolymer, the major constituent of which is polyvinyl chloride. The plastic material used shall not contain any constituents known to be injurious to health and likely to be extracted by contact with liquids.

4. Definition of Capacity - The capacity corresponding to any graduation mark is defined as the volume of water at 27° C, expressed in mili-litres, required to fill the measure to that graduation mark at 27° C, the observer's eye being level with the front graduation mark and the lowest point of the water meniscus appearing to touch the top edge of that mark.

5. Conical Measures

(a) Shape - The measures shall conical as shown in Fig 13 A to 13 F; the 50 ml measures shall be either tall or squat as shown in Fig 13 C and 13 D respectively.

Fig.13A 200 ml | Fig 13B 100 ml | Fig.13 C 50 ml (Tall) | Fig.13D 50 ml (Squat) | Fig.13E 20 ml | Fig.13F 10 ml | Fig 13.G 5 ml

Fig.13 - Conical Measures

The size of the base shall be such that the measure, when empty, shall not fall when placed on a plane inclined at 15° to the horizontal. The bottom of the measuring space, shall be uniformly rounded and shall merge smoothly into the sides of the measure.

(v) The overall volume of the measure shall be such that when it is filled with water to the highest graduation mark and a volume of water equal to half its nominal capacity is added to it, there shall be no overflow. But, the addition of a further quantity of water equal to quarter the nominal capacity shall result in water overflowing from the pouring lip.

P.T.O.

P A R T - III - PLATFORM MACHINES

1. Definition - A platform weighing machine is weighing instrument with compound levers and with the goods receptacle generally in the form of a platform. The capacity of these machines shall not exceed 3000 kg and weight of the loads shall be indicated either with a steelyard or with any other form of indicator.

2. Capacities - Platform weighing machines shall be of one of the capacities shown in Table 20.

3. Design and Construction.

(a) The steelyard in the platform weighing machine shall not have any readily removable parts except the support for counterpoise proportional weights. There shall be a stop or stops to prevent the sliding poise or poises from travelling behind the zero mark.

The minimum travel of a steelyard in platform machines shll be 10 mm either way.

(b) If a movable hutch, barrow, frame or bucket is used instead of the ordinary platform, it shall form an essential part of the machine without which the machine cannot be balanced. The movable hutch, barrow, frame or bucket shall be identified with the machine.

(c) Where a balance box is provided on the steelyards, the balance ball should not be easily accessible.

(d) The balancing arrangement for daily wear and tear shall have a range between 0.25 percent and 0.5 percent of the capacity of the machine and not less than 0.125 percent of the capacity each way. The balance box containing the balancing ball shall be securely attached to the steelyard, preferably by passing a bolt through the casing to the steelyad. The balancing ball shall be actuated by a detachable key (see Table 21).

(e) In the case of the platform machines provided with dials:

(i) racks and pinions shall be of hard wearing material;

(ii) the extremity of the index shall in no position, be at a greater distance from the graduated surface of the dial than 5 mm; and shall be made to meet but not to obscure the graduation marks; and

(iii) the dial shall be graduated into equal parts and the minimum width apart of the graduations shall not be less than 3 mm.

(f) The permissible extension of the platform on either side of the box in the case of extended platform shall be not more than 25 percent of the length of the box.

4. Counterpoise Proportional Weights

(a) All loose counterpoise proportional weights in a platform machine shall be identified with the machine by a number or any other suitable mark of identification, which shall be indelible. The counterpoise weights shall be marked with their equivalent weights in the following manner :

100 kg

P.T.O.

(b) The counterpoise weights shall be hexagonal in shape with the slot of a suitable size to allow them being place on the counter-balance.

(c) The counterpoise proportionnal weights shall be made of cast iron, preferably of Grade 10 B specified in IS:210 - 1950 or brass of grade 3 of IS : 292 - 1951.

(d) The proportional weights shall have one rectangular loading hole which should be undercut or tapering inside so as to hold lead securely for adjustments. The undercut hole shall be reasonably large to accommodate the lead required for normal wear and tear. The surface of the lead in the loading hole, when new, shall be at least 3 mm inside from the bottom surface of the weight.

(e) In the case of platform machines provided with proportional counterpoise weights, the smallest denomination of the counterpoise weight shall be equivalent to the maximum graduation on the minor steelyard.

(f) The denomination of the proportional weights shall be in the ratio of 1:2:2:5 and the total equivalent weight of all the proportional weights provided shall not exceed the capacity of the weighing machine.

Note: While arriving at the capacity of the platform machines, the maximum graduation shown on the steelyard in the case of loose weight platform machines and on the minor steelyard in the case of no-loose weight type machine shall not be taken into account.

5. T E S T S

(a) The steelyard of the platform machine shall remain horizontal at no load, With one quarter of the maximum load or as near thereto as is practicable, the platform machine shall indicate the same weight within half the prescribed limits of error, whether the load is placed in the centre or on any of the four corners of the platform.

(b) Platform machines shall be tested to verify the accuracy of any graduation up to the total capacity. All loose counterpoise weights, where such are provided, shall be tested and suitably sealed to prevent tampering.

(c) When a platform machine is fitted with relieving gear, the prescribed limits of error shall not be exceeded when the machine is put steadily out of and into gear. The plate or platform shall be entirely disengaged from its bearings when the machine is in relief.

(d) Dial machines shall be tested for error only. No sensitiveness test shall be taken on such machines. The permissible error at any load shall not exceed the limits prescribed in Table 20.

(e) Platform machines with the steelyard arrangement shall be tested for error as well as for sensitiveness at full load. The permissible errors and sensitiveness are indicated in Table 20.

(f) Platform machines shall not be tested for sensitiveness at loads less than full load.

6. S E A L I N G

A stud or a plug of soft metal shall be provided on the steelyard for receiving the seal in the case of steelyard weighing machines. In the case of dial machines, such a plug shall be provided either on the dial where it is accessible or otherwise [illegible] of the machine.

6. **Manner of deposit.**—The deposits shall be made once in every calendar month. In case of default, the date of maturity of the account shall be extended by the number of months for which default has occurred, provided the number of defaults does not exceed 5 in the case of a 5-year account and 10 in the case of a 10-year account. If the aggregate period of defaults exceeds these limits, the account shall be treated as discontinued.

(5) No Government servant shall, save in the ordinary course of business with a bank or a firm of standing, borrow money from or otherwise place himself under pecuniary obligation to any person within the local limits of his authority, or any other person with whom he is likely to have official dealings, nor shall permit any member of his family, except with the previous sanction of the Government, to enter into any such transaction :

Provided that a Government servant may accept a purely temporary loan of small amount, free of interest, from a personal friend or relative or operate a credit account with a **bonafide** tradesman.

(6) When a Government servant is appointed or transferred to a post of such a nature as to involve him in the breach of any of the provisions of sub-rule (4) or sub-rule (5), he shall forthwith report the circumstances to the Government, and shall thereafter act in accordance with such orders as may be passed by the Government.

14. Insolvency and habitual indebtedness.—A Government servant shall so manage his private affairs as to avoid habitual indebtedness or insolvency. A Government servant who becomes the subject of a legal proceeding for insolvency shall forthwith report the full facts to the Government.

15. Movable, immovable and valuable property.—(1) No Government servant shall, except with the previous knowledge of the prescribed authority, acquire or dispose of any immovable property by lease, mortgage, purchase, sale, gift or otherwise, either in his own name or in the name of any member of his family :

Provided that any such transaction conducted otherwise than through a regular or reputed dealer shall require the previous sanction of the prescribed authority.

Explanations.—(a) The prescribed authority for the purposes of this sub-rule shall :—

(b) In respect of a Government servant on foreign service or on deputation to any other Ministry or any other Government, the prescribed authority shall be the parent department on the Cadre of which such Government servant is borne or the Ministry to which he is administratively subordinate as member of that Cadre.

(2) A Government servant who enters into any transaction concerning any movable property exceeding one thousand rupees in value, whether by way of purchase, sale or otherwise, shall forthwith report such transaction to the prescribed authority, referred to in sub-rule (1).

Provided that no Government servant shall enter into any such transaction except with or through a regular or reputed dealer or agent or with the previous sanction of the said prescribed authority.

Explanation.—For the purposes of this sub-rule, the expression "movable property" includes inter alia the following property, namely :—

(4) The Government or any authority empowered by it in this behalf may, at any time, by general or special order, require a Government servant to submit, within a period specified in the order a full and complete statement of such movable or immovable property held or acquired by him or by any member of his family as may be specified in the order. Such statement shall, if so required by the Government or by the authority so empowered, include details of the means by which, or the source from which, such property was acquired.

16. **Vindication of acts and character of Government servants.**—No Government servant shall, except with the previous sanction of the Government, have recourse to any court or to the press for the vindication of any official act which has been the subject matter of adverse criticism or an attack of defamatory character.

Explanation.—Nothing in this rule shall be deemed to prohibit a Government servant from vindicating his private character or any act done by him in his private capacity

17. **Canvassing of non-official or other outside influence.**—No Government servant shall bring or attempt to bring any political or other outside influence to bear upon any superior authority to further his interests in respect of matters pertaining to his service under the Government.

18. **Bigamous marriages.**—(1) No Government servant who has a wife living shall contract another marriage without first obtaining the permission of the Government, notwithstanding that such subsequent marriage is permissible under the personal law for the time being applicable to him.

(2) No female Government servant shall marry any person who has a wife living without first obtaining the permission of the Government.

19. **Interpretation.**—If any question arises relating to the interpretation of these rules, it shall be referred to the Government whose decision thereon shall be final.

20. **Delegation of powers.** The Government may, by general or special order, direct that any power exercisable by it or any head of Department under these rules (except the powers under rule 19 and this rule), shall subject to such conditions, if any, as may be specified in the order, be exercisable also by such officer or authority as may be specified in the order.

21. **Repeal and saving.**—Any rules corresponding to these rules in force immediately before the commencement of these rules and applicable to the Government servants to whom these rules apply are hereby repealed.

Provided that any order made or action taken under the rules so repealed shall be deemed to have been made or taken under the corresponding provisions of these rules.

R. C. DUTT
Joint Secretary to the Govt. of India.

ANNEXURE

Rules 4(A) and 4(B) of the Central Civil Services (Conduct) Rules were promulgated by Government to meet the situation caused by indiscipline among Government servants. The question was raised whether these rules should be applied in the case of industrial employees of Government. Though, in theory, the Conduct Rules apply to all categories of Central Government servants, in practice certain rules had not been applied rigorously in the case of certain employees in Government industrial undertakings on the analogy of industrial employees in the Private sector who are not subject to similar restrictions in view of certain labour laws. Government decided to exclude such employees formally from the operation of Conduct Rules 4(A) and 4 B) and examined the question of framing a different set of rules for employees in industrial undertakings. It was eventually decided to exempt employees in certain industrial establishments from the application of Conduct Rules 4(A) and 4(B) and certain other rules as detailed below which it was considered unnecessary to apply to them.

Rule 3(A) . Employment of near relations in private firms.

Rule 4(A) . Participation in demonstrations and strikes.

Rule 4(B) · Membership of unrecognised service associations.

Rule 9 : Raising of subscriptions.

Rule 11 : Public demonstrations in honour of Government servants.

Rule 12(2) : Registration, promotion or management of bank or company.

Rule 13 · Investments, lending and borrowing.

Rule 15(1), (2) and 3) . Acquisition and disposal of immovable and movable property and returns of immovable property.

Rule 16 : Recourse to courts of law for vindication of acts done in the discharge of duty.

Rule 17 : Canvassing of non-official or other outside influence in furtherance of service interests.

Rule 18 : Prohibition of bigamous marriages.

A proviso has also been added to Conduct Rule 6(c) permitting bonafide expression of views by employees in the Specified Establishments as office-bearers of trade unions.

2. Other employees to whom the Central Civil Services (Conduct) Rules as a whole including Rules 4(A) and 4(B) continue to apply are employed on administrative, managerial, supervisory, security, welfare ministerial and such like duties or in departments, employees of which should continue to be governed by these rules. It is necessary in the public interest that the administration of the country should be carried on efficiently and without any hitch and this would clearly be impossible if employees in such departments are not prohibited from participating in demonstrations and strikes and from being members of unrecognised service associations. Facilities have been provided under which such staff may have their grievances in regard to their conditions of service redressed. Individual grievances can be represented by petitions. Grievances which are common to employees of a distinct category can be communicated to Government by the service association concerned. In addition, we have established staff councils in all departments which can bring to the notice of the Administration the genuine grievances of employees in regard to their conditions of service. In view of these safeguards, it is clearly unnecessary to relax the application of the Conduct Rules to such employees.

MANIPUR ADMINISTRATION

SECRETARIAT—EDUCATION BRANCH

Imphal, the 6th June, 1959.

The following letter No. F. 28-1/59-S.4 dated the 12th May, 1959 issued by the Government of India is published for general information.

H. M. Sharma,
Asstt. Secy. (Ed.), Manipur Administration.

New Delhi, the 12th May, 1959.

Subject :—Government of India inland Scholarships to the Scheduled Castes, Scheduled Tribes and Other Backward Classes ·· ···1959-60—Decentralisation of the Scheme.

No. F.28-1/59-S.4—I am directed to say that under the Government of India Scheme of award of Scholarships to the Scheduled Castes, Scheduled Tribes and Other Backward Classes, scholarships are awarded every year to the students belonging to these classes for post-Matriculation studies in India. Besides these scholarships, 12 scholarships for higher studies abroad, the selection of candidates for which is made by the Union Public Service Commission, and 12 Passage Grants to the candidates studies abroad, from foreign Governments, Organisations, or the Government of India under which the candidates are required to meet the passage costs out of their own funds, are sanctioned every year subject to the availability of suitable candidates. A sum of Rs. 225 lakhs has been sanctioned for the expenditure on the scheme for inland and overseas scholarships during 1959-60.

2. Of late suggestions have been received from various quarters (including certain State Governments) that in order to avoid delay in the payment of scholarships under the Scheme and to avoid duplication of work caused by some of the State Governments, having their own schemes of post-Matric scholarships of the backward classes, the work relating to the award of Indian Union Administrations.

3. The suggestions made have been examined carefully and it has now been decided, subject to the approval of the Cabinet which is being sought, that while the work relating to the award of 12 overseas scholarships and the sanction of 12 Passage grants which are being awarded on all-India basis should continue to be administered by the Government of India in the Ministry of Education as heretofore, the work relating to the award of scholarships for post-Matriculation studies in India be transferred to the State Governments/Union Administrations from the current financial year (1959-60), the Central Government placing the available funds at their disposal and laying down the principles for the grant of scholarships. Therefore, out of Rs. 225 lakhs sanctioned for the award of scholarships under this Scheme for 1959-60, the amount required for the 12 Overseas Scholarships and 12 Passage Grants (about 3 lacs) will be retained by this Ministry and the balance available will first be apportioned among the Scheduled Castes, Scheduled Tribes and Other Backward Classes on the basis of the expenditure incurred by this Ministry on inland scholarships for these classes during 1958-59. The amounts so allocated will then be distributed among the State Governments/Union Administrations for the award of inland scholarships to the Scheduled Castes, Scheduled Tribes and Other Backward Classes in the ratio that the number of eligible candidates of each category in the State/Union Territory bears to the total number of eligible candidates belonging to that category in the whole of India. For this purpose each State Government/Union Administration will be required in due course to intimate the number of applications received by them from the eligible Scheduled Castes, Scheduled Tribes and Other Backward Classes students for 1959-60 scholarships separately to enable this Ministry to allocate the funds on the basis mentioned above.

4. As it will not be possible for the State Government/Union Administrations to know the number of eligible candidates, who have applied for these scholarships until they have received all the applications and examined them to determine their eligibility which is likely to take some time, it is proposed, in order to avoid delay in the payment of scholarships, to place funds on the basis of the expenditure incurred on the award of Scholarships to the students in each State/Union Territory during 1958-59, at the disposal of the State Governments/Union Administrations early in the current financial year to enable them to proceed with the work of the award of scholarships. Thereafter as soon as the State Governments have intimated to this Ministry the total number of eligible candidates applying for these scholarships necessary adjustments will be made.

5. The award of Scholarships will be governed by the Regulations prescribed and instructions issued by this Ministry from time to time. A copy of the Regulations for 1959-60 scholarships is attached. The scholarships will be paid by the State Governments at the rates prescribed in the Regulations

6. Each eligible Scheduled Tribe candidate applying for a scholarship shall get a scholarship under the Scheme As regards Scheduled Caste candidates also, each such candidate will get a scholarship from funds to be found by allocations made under the scheme and funds which the State Governments/Union Administrations provide for the same purpose. For Other Backward Classes candidates, there will be a selection as heretofore on merit cum-means basis.

7. Consequent on the decentralisation of the scheme of disbursement of scholarships, there should be no reduction in the provisions which the State Governments/Union Administrations have been making (and will continue to make increasingly) for post-matric scholarships for the three Backward Classes.

8. A note detailing the principles to be observed by the State Governments/Union Administrations in the administration of the Scheme after decentralisation is also enclosed.

9. A further communication will follow as soon as the Cabinet has approved the proposal. In the meantime, it is hoped that the State Government/Union Administration will take necessary steps to handle the work as soon as it is transferred so that all possible delay in the payment of Scholarships is avoided and the students are not put to any hardship

The receipt of this letter may kindly be acknowledged.

PRESS NOTE

No. T.7.p/p/55-58/Vol.IV

Imphal, the 8th August, 1959.

It is notified for general information that owing to land subsidence at the 5th mile from Kohima there will be transhipment. There is a loop road which is being made motorable but this is likely to take a few days. The Manipur State Transport will be sending equal number of buses from Imphal and Manipur road (Dimapur) so that transhipment can be effected. Private vehicles therefore unless they are Jeeps and carrying their own escort will not be taken in the convoy since obviously they would not be able to tranship. Escorted Jeeps can, of course, pass over the loop.

PART II

MANIPUR ADMINISTRATION

OFFICE MEMORANDUM

Subject GRANT OF PREFERENTIAL TREATMENT IN THE MATTER OF SETTLEMENT OF CONTRACTS PERMITS, FISHERIES, FOREST MAHALS ETC.

Under Article 46 of the Constitution of India the State is under an obligation to promote with special care the economic interests of the weaker section of the people like the Scheduled Castes and Scheduled Tribes and to protect them from social injustice and all forms of exploitations. This policy is fundamental and mandatory. The economic interest of the weaker section of the people can be materially affected as a result of the policy that the State may follow in the matter of distribution of contracts, permits fisheries forest mahals etc. It is therefore felt that if their interests are judiciously promoted by all authorities under the Administration when contracts, permits fisheries forest mahals etc which the Administration have to distribute in the discharge of their normal responsibilities, the comparative backwardness in the economic sphere can, to a great extent, be removed and it may be possible to bring the economically weaker section of the people to the level of the rest which is the objective set before the Country in pursuance of the directive principles of State policy. The Administration has, therefore decided that all authorities connected with the settlement of contracts permits, fisheries, forest mahals etc. will specially promote the economic interests of the Scheduled Castes and Scheduled Tribes by showing them all possible preference in the matter subject to the requirements of the public service and needs of the Administration. The Administration consider that generally in respect of works where it may be feasible contracts, permits, fisheries, forest mahals etc when the works are settled on the basis of bids whether in auction or by tender, should be settled with candi-

dates belonging to the Scheduled Castes and Scheduled Tribes up to the limit of 10 per cent below the highest bid offered in any such case subject to the suitability of the person belonging to the category of people entitled to preferential treatment and his ability to perform the task satisfactorily and within such limits as regards the value of work upto which this concession will be available as may be fixed for the purpose. While this Administration does not desire that contract should be settled as a matter of course with persons belonging to Scheduled Castes and Scheduled Tribes if their bid is within 10% of the highest bid offered in any particular case, it cannot but emphasise that subject to suitability their case should be invariably considered favourably if the amount of their bid is within that limit. In any case in which the bid of a candidate belonging to a Scheduled Caste and Scheduled Tribe is not within 10% limit, but he is otherwise consider suitable for the performance of the work in question, he should, as far as practicable, be given an option to take the contract, permit or settlement at an amount to be fixed within 10 per cent limit according to the merit of each case.

2. It has also been decided that candidate belonging to the Scheduled Castes and Scheduled Tribes may be allowed in view of their comparative economic backwardness to deposit only 75% of the standard amount of security or earnest money for the purpose of any work. In respect of comparatively small work, requiring little technical skill, knowledge or equipment the desirability of granting preference to such people of the locality of the work for whose obvious advantages the works undertaken should also be considered for the sake of maximum local co-operation

3. This will come into effect from the date of issue.

By order of Chief Commissioner,
L. KIPGEN,
Secretary : Manipur Administration

NOTIFICATION

Imphal, the 12th September, 1959.
21 Bhadra, 1881 SAKA.

No. 18/6/59-L/S(H).—The undermentioned Bill is published for general information of the Public with the request that any view and opition if any, may be sent to this Administration immediately but not later than 12th October, 1959.

THE UNION TERRITORIES (LAWS) AMENDMENT BILL, 1958

(To be introduced in the Lok Sabha)

A

BILL

further to amend the Union Territories (Laws) Amendment Act, 1950.

BE it enacted by the Parliament in the Ninth Year of the Republic of India as follows :

Short title and commencement.

1 (i) This Act may be called the Union Territories (Laws) Amendment Act, 1958.

(ii) It shall come into force at once.

Amendment of Section 3 Sub-Section (2) Act 30 of 1950.

2 In Section 3 sub-section (2) of the Union Territories (Laws) Act 1950, delete the proviso viz :—

"Provided that the Indian Penal Code (Act XLV of 1860) in its application to the State of Manipur shall have effect as if :—

(a) in section 361, for the word 'sixteen' in clause Fifty the word 'fourteen' had been substituted."

STATEMENT OF OBJECTS AND REASONS

In Section 361 of I. P. C. in view of the changes in the social structure in Manipur, more particularly among the women folk, in education and other spheres of life, to retain the age at 15 years becomes harmful to society as it has the effect of encouraging early marriage which Parliament seeks to check. The females in Manipur should be kept under the lawful custody and care of the lawful guardians until they attain the age of 18 years which is the age of discretion as is contemplated in the rest of India to which the Indian Penal Code apply The effect of lowering down the age to 15 years is that divorce becomes very common in Manipur. Another effect is that persons committing acts which constitute crime in the rest of India go unpunished. Most of the kidnapping cases in Manipur are bound to fail as girls under 18 years, for want of proper discretion, are likely to be influenced by the accused persons when they come under the control of the accused saying that the girls give consent to the act. This Bill seeks to remedy these defects and difficulties.

2. Moreover, this appears to be in conflict with section 5 clause (vi) of the Hindu Marriage Act, 1955. There appears to be an anomaly in reducing the age of the female while in the male by two years under this section of the I. P. C. It seems that according to the present Act, the females of Manipur attain the age of discretion and capacity to judge things before attainment of the age of discretion by a male which is psychologically incorrect. This Bill seeks to remove this anomaly also.

3. In Section 375 of the same, there appears no cogent reason as to why the female of Manipur should be treated on a footing different from the rest of India in the matter of offence of raping Females who are under sixteen years of age are incapable of judging things rightly and so even with her consent the acts which answer the condition in section 375 are made criminal whereas those acts do not constitute an offence in Manipur. According to medical Juris-prudence when females approach the age of 15 years, there is always a tendency to the natural urge and consent is likely to be given by such females. The result is the morality of society is degraded. This Bill seeks to remedy the evils which are brought about by lowering the age from 16 to 14 years.

4. In the Exceptions, the present Act which lowers down the age of the wife from 15 to 19 years appears to be in conflict with the provisions of the Hindu Marriage Act 1955 Section 5 clause(iii). This Bill seeks to remedy this defect.
